

Congressmen sent congratulatory letters to CAIR on operating in the US for 25 years. CAIR is only one of many radical Islamic groups who work closely with the DNC and includes the Islamic Circle of North America (ICNA), Islamic Society of North America (ISNA) and the Muslim American Society (MAS).

EMGAGE and **JetPac** were recently formed to educate Muslims on how to penetrate American Politics and fund-raise. On July 20, 2020 Joe Biden was a key speaker at the EMGAGE convention. Biden said American children should be taught more about Islam in public schools: *"One of the things I think is important, I wish we taught more in our schools about the Islamic faith"*. Does he not understand the 1st Amendment?

Two successful Islamic individuals are now sitting in Congress, Rep. **Ilhan Omar** (D,MN), and Rep. **Rashida Tlaib** (D, MI).

Ilhan Omar, a refugee from war-torn Somalia, shows no gratitude to the country who welcomed her with open arms. When asked about the Islamic terror attacks on NYC and Washington, D.C., on 9/11/01 she responded: "Somebody did something" with no acknowledgment of who did what or why. The district she represents has a very high population of Somali refugees and is known by the FBI as the leading center for Jihad recruitment in the United States. She has been accused of marrying her brother (a felony) so he could become a U.S. citizen.

Rashida Tlaib (D, MI) is very outspoken in her hatred for America. She refuses to denounce Hamas as a terrorist organization. She draped herself in a Palestinian flag at her celebration dinner after she was sworn into office. And she proclaimed her mission was to "Impeach the Motherf___ker" regarding President Trump.

In a speech delivered to the Annual Muslim American Society and Islamic Circle of North America (MAS-ICNA) Convention in December 2015, **Nihad Awad**, the Executive Director of CAIR, urged Muslim Americans to take up the cause of Black Lives Matter. "Black Lives Matter is our matter," he said; "Black Lives Matter is our campaign."

At the same conference, **Khalilah Sabra**, another activist, told the Muslim audience, "Basically you are the new black people of America... We are the 'community that staged a revolution across the world. If we could do that, why can't we have that revolution in America?' 'That revolution' is apparently a reference to the 2010-11 'Arab Spring' revolutions which were inspired by the Muslim Brotherhood and which brought death, destruction, and political upheaval to wide swaths of the Middle East and North Africa (5).

As fellow Americans and concerned citizens we urge you to think carefully about who and what you support – is today's chaos really about social justice or is it an opening to socialism that is antithetical to our values, rights and liberties as a Constitutional Republic?

Americans almost to a person renounced the wanton killing of George Floyd and pressured law enforcement to arrest all the police officers involved. Social Justice was achieved in a matter of weeks, and other communities took steps to correct police protocols that contributed to Mr. Floyd's death. Sadly, the demonstrations far outlasted the causal injustices. At what point do demonstrations for social justice become something else? The Black Lives Matter campaign lost its relevance when there are millions of dollars of property damage, often in Black neighborhoods. It lost its relevance when Black-on-Black murders increased due to defunding and disbanding police protection. It lost its

relevance when the number of Black babies *aborted* now exceeds the number of Black babies *born alive* in many cities.

Black Lives Matter becomes a cover for a political agenda when: 1) cities order police to stand down and allow mobs to destroy their police stations; 2) when mayors allow and participate in painting political slogans on public streets; 3) when District Attorneys order the arrest of citizens for defending their private property against mobs; 4) when quarantines are imposed for churches but not for mass demonstrations; and 5) when monuments to national heroes like George Washington and Abraham Lincoln are torn down by mobs; 6) when major companies are intimidated into making donations and changing their team or product names to appease a few militant agitators when the majority of Americans of the impacted races *do not* endorse such action.

What is the political agenda? Replacement of our 250 year old constitutional republic with a form of

socialism for which there is no model of success anywhere in the world since the word was invented.

Democrats are now aligned with the Marxist and Radical Islamic organizations to fundamentally change America. The so called Red-Green Axis has been working hand in hand with the Democratic Party. Their collective goal is to remove President Trump from office and destroy America. Whether you like Trump or not you should be against this anarchy happening all across America. The objectives of the militant agitators who are hiding behind the Black Lives Matter demonstrations are to neutralize law enforcement, disarm citizens, and give rise to anarchy in our cities. Their hope is that this chaos will drive voters and their representatives to embrace drastic measures to further curb our freedoms and liberties. In a word, Socialism. We have seen this scenario played out before in the Bolshevik Revolution in 1918 Russia, in the Beer Hall Putsch in 1923 Germany, in the Juan Peron nationalization of industries in 1946 Argentina. It does not end well. Why should socialism bother you? Because there's no free speech, no freedom of religion or lack of, no right to gun ownership and on and on. Socialism would work to undermine, legally or illegally, the basic freedoms protected by the Constitution's Bill of Rights. It would also lead to radical redistribution of wealth from the productive segments of the society to those already dependent on government aid. Taxes would increase dramatically.

Let's take a quick look into a few of these groups:

BLM – When you peel back a couple of layers you find the founders, Alicia Garza, Patrisse Cullers and Opal Tometi are well-trained Marxists. All three have worked for Freedom Road Socialist Organization (1), Communist Party USA (2) and Democratic Socialists of America (3). BLM co-founder Patrisse Cullers

went on record as saying that the immediate goal of BLM is to remove President Trump from office. On the surface, they paint themselves as a group wanting justice for Black peoples.

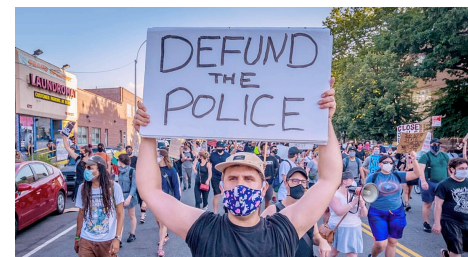

Perhaps that is a small portion, but the large goal is to take down America as we know it through anarchy.

Antifa – Is a loose coalition of militant agitators aligned with the (progressive wing of the) Democratic Party. Not one Democrat has criticized the violent civil disobedience and destruction of property we are seeing in cities like New York, Portland, Seattle, Los Angeles and others. Antifa has a presence in all 50 states. The oldest group in America is Rose City Antifa, based in Portland Oregon. Antifa in America has its origins in the Communist Party USA. It is the organizing arm for all of the riots we are seeing across America. Their goal is to disrupt our civil order to the point that citizens and their representatives usher in laws and decrees that suppress law enforcement, citizen self-defense, and freedom of speech. They have been quietly awaiting for a spark to ignite the rioting. The national outrage at the tragic death of George Floyd provided it. As Saul Alinsky said, "never let a crisis go to waste".

Funding for both BLM and Antifa has come from **George Soros' Open Society Foundations**, Tides Foundation, Arca Foundation, Brightwater Fund and if you peel back a few layers you will find the Chinese Communist party.

CAIR – Council on America Islamic Relations, a strong supporter of the Democrat Party, in 2008 was named an unindicted co-conspirator in the largest terrorism financing trial in American history. As a result, the FBI severed all relationships with CAIR which is known as Hamas dba CAIR in the United

States (6). In December 2019 CAIR held its 25th anniversary celebration dinner where over 120 Democratic
