

Form a Multi-State “America First” Popular Alliance

– The Left has “Our Revolution”, a nationwide alliance of 600 groups operating both inside and outside of the Democratic Party. It is funded by Democratic Socialists of America and the Communist Party USA. “Our Revolution” works in the Democratic primaries to elect far-left candidates like Alexandria Ocasio Cortez, Ilhan Omar and Rashida Talib. We need an “America First” umbrella group to operate outside and inside the Republican Party. This organization should be devoted to promoting the America First agenda at every level of government. We need to harness the energy of the 70-80 million Trump voters whose votes were diluted by election fraud in the 2020 Election. This could unite grassroots Republicans, patriotic Democrats and Independents who are increasingly aware that the Election was not open, fair, or transparent.

Boycott/Buycott Bigtime – Patriots need to boycott unpatriotic, “woke” companies and buycott (i.e. buy from) loyal American companies like My Pillow and Goya Foods. The CCP has just crippled the US economy with the irresponsible handling of the virus pandemic. Then pro-China Communists sponsored mass Black Lives Matter/Antifa rioting across America. Finally, evidence is surfacing that Chinese Communists worked to influence the 2020 election.

Form Groups to Oppose The Progressive/ Marxists Agenda in Your Community

- ▶ Get to know your neighbors, the people you work with and those with whom you worship. Identify those who share your conservative, America First ideals.
- ▶ Start forming groups with these like-minded individuals. And get their cell phone numbers and email addresses.
- ▶ Set up a meeting to talk about the goals and objectives of the group.
- ▶ Provide moral support to those who fear or actually face intimidation and “cancel culture” action.

This brochure is meant to be a synopsis of some of the steps Americans can take to stop the spread of socialism in American. For a detailed description please read the article by Trevor Loudon at: https://www.theepochtimes.com/a-new-zealanders-9-starter-steps-to-save-america-from-socialism_3718917.html

A Patriots Primer

2021

VISUALIZE FREEDOM

ACT Locally WIN Nationally

This struggle to save our Republic Will Be Won or Lost at The Local Level

With the Democrats in control in Washington DC, we are seeing their Leftist, Marxist policies being implemented. Bilateral support is no longer a consideration. Democrats want to destroy our Republic, not strengthen it. We must organize people at the local (town, city, county) level and take action.

This brochure is the first in a series which will help individuals and groups of people know what they can do and how to fight back to help preserve our Republic.

What Individuals and Groups Can Do Today

Exit Biased Systems Completely

- Spend less or no time on leftist run social media platforms such as Twitter, Facebook and sign up to accounts with GAB, Rumble, and Parler.
- Do your shopping and banking with like-minded organizations
- Get your news from reliable sources, such as OAN, Newsmax and to a lesser extent Fox News.
- Use DuckDuckGo as your search engine instead of "Google". Google stores all of your searches and then sell your data for profit.

► Get involved with supporting good conservative candidates at the local level. Know your city council members, school board members. Get to know who are the strong conservatives and back them. Also know who are leftists/Marxists and oppose their ideas with facts and data. And get to know what the "hot topics" of discussion are at the meetings. Form groups and speak out at these meetings to express your views based on documented evidence.

Face Reality – Trump was outmaneuvered by an alliance of forces aligned with Communist China, the Globalist "One World" agenda, and even RINOs from his own party. The "deep state" is now almost fully in control. Still, the Constitution and the "consent of the electorate" are powerful forces which will ultimately prevail.

Stop All Violent Rhetoric – Violence will not save America. The left needs evidence of "right wing" violence to justify their draconian measures, such as limiting freedom of speech and the right to bear arms. And you can bet that Iran and China co-opt any civil conflict in the U.S. to advance their own agendas.

Restore Election Integrity – Thirty states are currently led by Republican legislatures. Patriots must work to restore voting integrity. The Democrats' H.R.-1 (For the People Act) is blatantly unconstitutional. If you live in a red state, do a search for your state's "election integrity project" and get involved. We must work to restore voting integrity in the red states, then the red counties of blue states, and then after the likely Republican resurgence in 2022, the entire nation.

Close the Republican Primaries Immediately

– Only five US states have closed Republican primaries. This means that in most states Democrats and Independents (even Communists) can vote in Republican primaries – and they do. These non-Republican voters can select weak Republican candidates to run against their Democrat opponents, ensuring a Democrat wins.

Organize a Compact of Free States – This does not mean secession. What's needed is a reaffirmation of the 10th Amendment rights as already outlined in the US Constitution. Every Red State must work to oppose Federal overreach. The Left wants to control all elections at the Federal level via legislation like H.R.-1.

Help Reinforce States' Rights – Under the Constitution, the states are technically superior to the federal government. For instance, most states only get about 10 percent of their education budget from the feds – but are almost completely subservient to the Department of Education dictates. Why not forgo the measly 10 percent in exchange for a return to local control over public education? America is losing its youth in the public schools due to racist, trans-sexual, and anti-American indoctrination. State sovereignty in education, etc. would give parents more control over their children's education and restore citizen's control over their own government.
